HELLENIC
ASSOCIATION *for*
ENERGY ECONOMICS

LEAD LECTURER

Dr. Kostas Andriosopoulos

Professor in Finance & Energy Economics at ESCP Europe Business School, London, UK

LECTURER

Mr. Filippos Ioannidis

PhD Candidate, Aristotle University of Thessaloniki

Professor Dr. Kostas Andriosopoulos is the Executive Director of the Research Centre for Energy Management at ESCP Europe Business School where he holds the position of full Professor in Finance and Energy Economics. He is also the Academic Director of the full-time (MEM) and the Executive (EMEM) Masters in Energy Management. He is the founder and current Chairman of the Hellenic Association for Energy Economics (a think-tank focusing on issues related to energy, the environment and the economy), he is a board member of the Global Gas Center of the World Energy Council as a Gas and LNG markets expert, and he also sits at the board of the International Association for Energy Economics as a Vice President for Publications. Since March 2019 he is the Chairman of the Energy Committee at the American- Hellenic Chamber of Commerce. Kostas holds a PhD in Finance (Cass Business School, City University London), where he has been the recipient of the prestigious Alexander S. Onassis Public Benefit Foundation's scholarship. He also holds an MBA and MSc in Finance (Northeastern University, Boston, USA), and a bachelor's degree in Production Engineering and Management (Technical University of Crete, Greece).

Filippos Ioannidis is a PhD candidate at the Department of Economics at Aristotle University of Thessaloniki, Greece. Filippos holds an MSc in Banking and Finance from the School of Economics, Business Administration and Legal Studies (International Hellenic University, Thessaloniki, Greece) and an MSc in Economics from School of Economics and Management (Lund University, Lund, Sweden). He obtained his bachelor's degree in Economics from the Department of Economics (University of Macedonia, Thessaloniki, Greece). Currently, he is a research associate of HAEE.

Seminar Overview

HAEE's introduction to the "Basics of Hellenic Energy Exchange" Seminar provides a solid overview of the main principles and concepts related to the power market model as implemented in Europe, accompanied by the latest developments in Greece. The seminar includes an introduction to the concept of market design, the roles of the different markets, regulation, price determination and risk management. The core objective is to understand the most important features of Hellenic Energy Exchange structure.

Topics covered

- The basics of electricity markets
- The wholesale electricity market
- The concept of Power and its development
- Roles, market design and responsibilities of a Power Exchange
- Day-Ahead, Intraday and Forward Market

Learning Objectives

Upon completion of the Seminar, participants will be able to:

- Have an understanding of the latest developments in the wholesale electricity market
- Examine the structure an Energy Exchange based on Target Model Directions
- Identify key challenges facing the industry
- Explore future developments in the market

Target Audience

Participation to the seminar is highly recommended for:

- Individuals starting a career in the energy industry
- Professionals working in the energy industry who want to further their knowledge of electricity markets
- Professionals working for companies that support those in electricity market
