LECTURER

Ashutosh Shastri

BoD Member; Expert, Global Gas Centre-World Energy Council

Ashutosh Shastri is the founder of EnerStrat Consulting- a London based international strategic management consultancy practice in the Energy Sector. Additionally, he also serves as Advisor, Global Gas Centre, Geneva and a Distinguished Fellow (non-resident) at the Washington DC based Energy Policy Research Foundation Inc. (EPRINC).

Seminar Overview

The upcoming Climate Conference will herald the silver jubilee of climate change negotiations organised as a Conference of Parties (COP) by the UNFCCC. This seminar will provide not only an insight into how the climate negotiations impact business of the energy industries but also provide a historical underpinning to how the future policy around carbon market developments, global pricing of carbon and the role these negotiations play in the evolution of carbon finance instruments.

This course covers the international policy, market instruments of carbon and the role of carbon finance in facilitating the energy transition to a decarbonised economy that is underway. The objective of this course is to prepare the attending professionals to clearly establish the link between the esoteric sounding language of climate negotiations to the strategic drivers in globalising carbon markets and the role of carbon finance that is driving the transition towards a decarbonised economy, globally.

Topics covered

- Historical overview of the international climate negotiations
- Geopolitics of Renewables and International Carbon Markets
- Introduction to Flexibility Instruments, Carbon Trading Concepts
- Overview of the Carbon markets
- Key developments in Carbon Markets
- Climate Negotiations and Carbon Finance
- Update on Carbon Finance instruments

Learning Objectives

Upon completion of this seminar, the participants will have a good command over the process of international climate negotiations, be able to draw meaningful/practical conclusions from the outcome of the negotiations, have a good understanding of cap-and-trade concepts, carbon pricing and the role carbon finance can play in making the low carbon transition happen.

Target Audience

Participation to the seminar is highly recommended for:

- Market Analysis, Strategy, Policy, R&D and Trading function professionals in energy companies
- Finance sector professionals keen to understand carbon finance
- Policy analysis and Regulatory Management professionals
- Project and Business Development professionals in energy/engineering companies.
